

Spiroflow Showing Off Bulk Bag Discharger

Spiroflow Systems, Inc. will be showing off their Bulk Bag Discharger at the upcoming Process Technology Expo South at the Charlotte Convention Center in Charlotte, NC on March 19-20, 2008.

The Spiroflow display will feature a working flexible screw conveyor collecting material from the bulk bag discharger, and conveying it to a Spiroflow aero-mechanical conveyor which fills the product back into the bulk bag. Spiroflow will also be featuring bulk bag fillers and vacuum conveying equipment.

"Flexible screw, aero-mechanical and vacuum conveyors available from Spiroflow typically offer the lowest cost, simplest, most hygienic and easiest to clean means of conveying products from free flowing salt to sticky lumps of broken chocolate, chemicals or minerals."
